

To Our Valued Community,

Over the past year, with the help and generosity of our community, The Morrison Communities has advanced resident care and technological security, scheduled brick restoration for our founding hospital building, and added natural, cozy touches across our campuses to make them truly feel like home. Now, we turn our eyes to the future with a focus on creating spaces that inspire connection, and actions to modernize the efficiencies of our historic building.

This year, our goal of \$80,500 will help bring these enhancements to life – projects that celebrate the spirit of our residents, honor the richness of our legacy, and support sustainability upgrades to our heating, water, and energy systems.

We see opportunities blossoming across our organization to elevate resident surroundings and improve essential efficiencies. At the Morrison Skilled Nursing Facility, plans are underway to renew the outdoor deck, giving residents and visitors a welcoming space to enjoy fresh air and sunshine. Additionally, Sartwell and Morrison residents alike can look forward to a more sustainable and consistent heating and water system through new boilers and restoration work to water lines. At Summit by Morrison, our landscaping projects continue to take root with the creation of an enclosed dog area, along with additional landscaping enhancements that make our residents' outdoor activities even more enriching.

- Terrace Street Boilers and Water Lines: \$45,500
- Morrison Deck: \$20,000
- Summit Outdoors: \$15,000

Keeping our campuses refreshed and up to date ensures an important part of our mission remains true: providing a quality, home-like environment. Enhancing our outdoor spaces strengthens the heartbeat of our community through connections with each other and nature, while work behind-the-walls upholds the warmth and care our residents deserve, all while honoring the historical legacy our buildings represent.

Your continued support and belief in resident fulfillment make our mission possible every day. With a gift today, you can nurture resident well-being, foster individuality in care, and bring joy to all those who call our campuses home. Together, we are building spaces that celebrate life and community.

From our hearts to our gardens, thank you for helping us grow – because home is more than a building and care is more than a chart; they are shaped by the true compassion of the community and the richness of the people they support.

With Deepest Gratitude,
The Morrison Communities

A place to live. A place to belong. A community that feels like home.

“My husband and I have lived at the Summit for 5 months and we are very happy with our decision to move here. The staff has made us feel welcome, and the activities and trips are diverse, interesting, and fun. And we have made many new friends here. A good move for us!”

Nancy and Leon Wright
